

Summer Science and Leadership Program

July 8-19, 2019 for High School Juniors/Seniors Fall 2019

Little Mussel, Big City

The Grand River is the heart of our city and the intersection of its history, business, ecology, and social scene. The Grand Rapids WhiteWater 10-day Summer Science and Leadership Program takes learning outside the classroom where you will:

1. Conduct a hands-on science investigations of mussels, fish, and more.
2. Learn about and practice principles of Design Thinking, a process for creativity and innovation.
3. Work with scientists, business owners, and civic leaders invested in our communities.
4. Present your project ideas to community leaders working to build a sustainable future.

\$200 Education Stipend Upon Completion!¹
